

## Personal Document Scanner with Built-In Card Scanner

**The imageFORMULA P-215 Scan-tini personal document scanner is an ideal solution for both Windows® and Mac® environments. Complete with a built-in card scanner, the P-215 scanner's compact size, simple use, and high-quality imaging bring sophistication to mobile and portable information capture, storage, and collaboration.**

### A Wide Variety of Applications

The P-215 scanner was designed to improve individual productivity anywhere, from the Small Office/Home Office (SOHO), to large enterprises, to classrooms, and traveling in between. It can help meet the document capture needs of stationary users and "road warriors" in healthcare, financial services, government, and many other areas. P-215 scanner users can conveniently execute general purpose, distributed scanning tasks to maximize business efficiencies.

### Compact and Convenient

At 11 inches long and weighing just over two pounds, the P-215 scanner is able to incorporate an automatic document feeder (ADF) and card scanner in its sleek design. Bringing the power of document capture to any workspace, the P-215 scanner also fits easily into a briefcase for easy portability.

### Simple to Use

Upon connecting to a PC, the P-215 scanner immediately launches Canon CaptureOnTouch Lite. This "Plug-and-Scan" capability lets users initiate scanning without installing drivers or applications. CaptureOnTouch simplifies scan tasks by allowing users to pre-configure scan jobs. It also includes Full Auto Mode, which, with a single click, adjusts multiple settings to deliver an optimal scanned image.

### Maximum Image Quality

The P-215 scanner includes features such as Character Emphasis to improve the legibility of hard-to-capture documents. The Auto Resolution setting is useful for scanning mixed batches of documents and photographs while automatically adjusting the resolution to improve quality and reduce file size. Other image processing features include Background Smoothing and Shadow Cropping.

## Productive and Flexible

The P-215 scanner can reach maximum scanning speeds using electrical power via a single USB cable. It is capable of single-pass duplex scanning of batches up to 20 sheets at up to 15 pages per minute in color or black and white. To complement the ADF, this scanner also includes an integrated card scanner capable of handling plastic ID cards, driver licenses, and even embossed cards.

## Environment in Mind

The P-215 scanner is part of Canon's Generation Green Program. It also meets ENERGY STAR® guidelines for energy efficiency and complies with the EU RoHS and WEEE directives for reduction of hazardous substances and waste products.
